

Santa Clara County Area Transit (SCAAT) ALRV No. 832 is one of fifty 6-axle, 88-foot articulated cars built by UTDC Inc. at its Thunder Bay, Ont. plant and finished locally in San Jose, Calif. in 1987. By June 1988, the north section of the 20-mile Guadalupe Corridor project was completed, providing fast LRT service between downtown San Jose (the transit mall) and Great America Parkway in Santa Clara.
